

I and my two boys, ages 18 and 16, are avid listeners of K Love radio -- FM 90.7 here in Chesapeake VA. There are very few stations here which offer this type of positive and encouraging programing. We know that many of my friends and their friends would be very distressed if it were replaced by an LPFM. We listen to it whenever we have the radio on and our lives are truly enriched. It provides a wholesome, good influence on today's teens. Please do not give LPFMs priority over FM translators if it will remove 90.7 K-Love from our community. Sincerely, S.L. Yagel
